

pembrokeshire lanterns

information and hire charges

pembrokeshire lanterns create a magical atmosphere for outdoor spaces at celebrations, weddings and other special occasions

the lanterns are individually hand-crafted from willow and tissue paper and come in two standard sizes

- large approximately 1.2 metre tall
- small approximately 80cm tall

typically an installation might consist of between 10 and 20 lanterns using a mixture of small and large to form an avenue, mark an entrance way or provide focal points in outdoor spaces at night

the lanterns are illuminated with halogen bulbs running off 12V batteries, they are waterproof and are fastened securely to the ground

the smaller lanterns can alternatively be illuminated with candles to provide a very gentle living light

hire charges

£10 per lantern, including delivery, installation, illumination and removal after the event or £5 per lantern if you collect, install and return them

one-off bespoke lanterns can also be commissioned
